2.9.1 Cardiopulmonary Resuscitation Training	02/21	- Revised

Cardiopulmonary Resuscitation Training

Purpose This document establishes the standard that all staff members will maintain appropriate CPR certification.

Audience The information in this document is intended for all members of the Rehabilitation Services staff.

Policy The patient care staff of the Department of Rehabilitation Services will be certified, (recertified), in Cardiopulmonary Resuscitation (CPR) as required.

CPR Staff Requirements All employees will schedule their CPR training/CPR recertification.

Employees may make an appointment by calling the Education Lab at ext. 22823, or making an on-line appointment found on the UTMB Health System home page ([click on About UTMB go to Department and Programs, under Education, go to Programs \(Academic\) click on Education lab, click on Calendar and Registration](#))

Each employee is responsible for maintaining current CPR certification and for providing a copy of the current certification for their personnel file.
