

# WELCOME TO THE LACTATION ROOM

## JST 705

Our UTMB Administration has provided this room to support staff and students who are currently providing breastmilk for their infants. Our goal is for you to have a private, comfortable, quiet, and relaxing environment to achieve your pumping success.

Feel free to use our reference library; please do not remove books from the room. We would like everyone to have access to these resources. A refrigerator has been provided for your milk storage during work hours. Please remember to take your milk home with you.

Caviwipes and gloves will be available for your use. Please clean pump before and after use. If you prefer to bring your own personal pump, feel free to do so. Lockers are available for you to store pump equipment while you are at work. Please remember to remove your lock at the end of your shift.

A CD player with music is available for your listening pleasure. You are welcome to bring your own music.

The Texas Department of State Health Services has provided us with a few Ameda double pump kits. If you need one or have any questions please contact:

Martha Urbina RNC-LRN, IBCLC

Office (409) 772-0485

Pager (409) 643-3585

E-mail [mlurbina@utmb.edu](mailto:mlurbina@utmb.edu)

Pat Lopez RNC-LRN, IBCLC

Office (409) 772-1499

Pager (409) 643-0041

E-mail [palopez@utmb.edu](mailto:palopez@utmb.edu)

Contact Martha or Pat for key pad access code.

Please feel free to provide us with feedback, offer suggestions or forward comments.
